

CAREER EDUCATION, SPECIALIST CERTIFICATE

EDTC 631	Administration and Supervision of Technology in Educational Settings	3
EDTC 642	Introduction to Authoring Tools	3
Total Credits		36

The Career Education Specialist Certificate is designed for educators who place and supervise vocational-technical students. This program provides growth opportunities to assure that candidates acquire a broad theoretical and practical background. These courses are project-based, and candidates leave with applications that can be used in their particular school settings.

The courses in the Career Education Specialist sequence are designed to advance professional skills and intellectual development within the framework of contemporary education and technology. In addition, these five courses, when combined with other State requirements, can be applied to a variety of endorsements: Cooperative Education Coordinator; Cooperative Education Coordinator-Hazardous Occupations; and/or County Apprenticeship Coordinator.
