The Bachelor of Science in Management provides students with fundamental management concepts. This includes the management techniques of different organizations: business; government; health services; education and insurance. Continuing study examines the functional and analytical specialties within institutions. Graduates work as business practitioners, as managers in manufacturing, banking, marketing, hospitality operations, restaurants and retail.

Completion of the Bachelor of Science in Global Business prepares the student for a career in the export / import field or as a manager in a multinational organization. Graduates are qualified for continued study at the master's level.

Joseph Stern (jstern@njcu.edu)

Associate Professor of Management
City College, B.A.; Baruch College, M.B.A.; New York University, Ph.D.

Various discipline-specific concentrations that will prepare students for multiple fields of employment or areas of additional undergraduate/graduate study are noted below. Course requirements for each concentration are explained in detail. The requirements for graduation, in addition to completion of the major area, are listed on "Undergraduate Degree Requirements (https://catalog.njcu.edu/undergraduate/undergraduate-degree-requirements)."

Management (MGMT)

MGMT 1XX Management Transfer Credit (0 Credits)

MGMT 2XX Management Transfer Credit (0 Credits)

MGMT 110 Life is Good Business: Understanding how Business Impacts Everyday Life (3 Credits)

This course is an introduction to and overview of the world of business and how it impacts everyone's daily life. Students learn business concepts in a cultural and civic context enabling them to be better citizens, better consumers, and better able to chart their personal and professional careers.

MGMT 203 Business Statistics (3 Credits)

Designed to acquaint the student with basic business statistics, this course includes the following topics: measures of central tendency and variability, probability, hypothesis testing and correlation and regression analysis.

MGMT 211 Principles of Management (3 Credits)

The purpose of this course is to examine theory related to the managerial function including areas such as planning, organizing, staffing and controlling business organizations. The case study method is used.

MGMT 220 Introduction to Entrepreneurship (3 Credits)

This course is designed to provide a foundation in entrepreneurship. Students will gain an understanding of the ongoing challenges for entrepreneurs in the key functional areas such as marketing, finance, and operations. Using business plan templates, students will examine the opportunities that exist in new venture planning.
MGMT 211 Principles of Management
This course provides students with the concepts and tools to assess, discover and unlock the potential for seeing opportunity, and to translate the opportunity or idea into a business. Students will explore what skills, knowledge and behaviors are useful to the entrepreneur and engage in community-based research.

MGMT 225 Business Enterprise Applications (3 Credits)
This course provides a foundation in current business software and applications. It prepares students for certification in the most widely used software and business applications, including but not limited to Excel and Bloomberg Essentials, an introduction to Word, PowerPoint and other business-related technology. No prior computer experience is necessary.

MGMT 230 Business Communications Essentials (3 Credits)
This course is designed to provide students with an understanding of the many communication needs for business professionals, especially start-ups and small business owners, including written, oral, and digital communication. The course will examine how communication skills are applied, including interpersonal communication, intercultural and international communication, and leadership.

Pre-Requisite(s): ENGL 101 English Composition I

MGMT 241 Global Business (3 Credits)
This course surveys the cultural, political, and economic environments of international business as well as the role of international and regional organizations in facilitating commerce. Particular emphasis will be placed on the European Economic Community and developing nations.

MGMT 243 Global Management (3 Credits)
International portfolio strategy, plant location, national entry strategy, new product introduction and risk management are among the topics covered in this course. Emphasis is placed on the case study method and presentations by active international managers.

Pre-Requisite: MGMT 211 Principles of Management

MGMT 249 Service Management Principles (3 Credits)
This course provides an overview of the various components of service management and how to manage customer needs through delivery of a bundle of services and physical goods that generate value. This course covers a mix of topics including service strategy design, service quality management, and service delivery processes.

MGMT 250 Operations and Supply Chain Management Fundamentals (3 Credits)
This course is designed to provide a foundation in Operations and Supply Chain Management. Students will be exposed to the main principles and basic theories of supply chain management including procurement, production, transportation, warehousing, inventory management, and information management.

MGMT 251 Operations and Project Management Fundamentals (3 Credits)
This course provides a broad overview of operations, supply chain, and project management emphasizing a strategic orientation to design and improvement issues. Specific topics include competitiveness, operations, strategy, quality management, statistical process control, product design, process design, facility design, project management, supply chain management, inventory management, lean production, and scheduling.

MGMT 300 Introduction to Supply Chain, Logistics and Port Management (3 Credits)
This course is designed to provide a foundation in Supply Chain, Logistics and Maritime Port Management. Students will be introduced to the main principles and basic theories of supply chain management including procurement, production, transportation, warehousing, inventory management, logistics, port management features and information management.

Pre-Requisite(s): MGMT 211

MGMT 301 Professional Development (3 Credits)
A survey course of essential management skills for the 21st century manager including: self-assessment, career planning, business etiquette, succeeding in a global and diverse business environment, cultural business resources, cultural business awareness and sensitivity, career development and portfolio development, networking, communication skills, utilizing technology.

MGMT 302 Undergraduate Business Field Study I (3 Credits)
The Undergraduate Business Field Study I emphasizes the relationship of concepts and skills learned in the classroom with real-world experiences. Students will work part-time in a position approved by the undergraduate program advisor or department chair and complete a project paper under the supervision of a faculty advisor.

MGMT 305 Procurement and Supplier Management (3 Credits)
This course is designed to provide a foundation in Procurement and Supplier Management. Students will be exposed to key principles of purchasing and supplier strategies. Role of purchasing in today's supply chain is re-evaluated to include traditional functions but also competencies gained from partnering with suppliers. Integration of suppliers resources at product development and operational levels will also be examined.

Pre-Requisite(s): MGMT 211

MGMT 306 Logistics and Transportation Management (3 Credits)
This course is designed to provide a foundation in Logistics and Transportation Management. Students will be exposed to key components involved in the operations of supply chains and evaluate their corresponding transportation options to maximize efficiency. The fundamental principles utilizing multiple modes of transportation to include air, maritime, and ground transportation will also be explored in this class.

Pre-Requisite(s): MGMT 211

MGMT 310 Port and Intermodal Transportation Management (3 Credits)
Logistics is a critical link in Supply Chain Management which uses all the modes of transportation. Port acts as the interface between these modes. This course provides the students an insight into the operational aspects of Port and Intermodal Transportation.

Pre-Requisite(s): MGMT 211

MGMT 311 Organization, Theory & Practice (3 Credits)
The impact of individuals, groups, and organizational structures on behavior within firms is examined in this course. The primary objective is to apply such knowledge toward improving a firm's effectiveness. Topics include behavior, attitudes and motivation of individuals; politics, conflict and consensus within and among groups; and the structure, design, and development of organizations. Cases are studied within the context of theory.

Pre-Requisite: MGMT 211 Principles of Management
MGMT 312 Human Resource Management (3 Credits)
This course provides an opportunity to study the typical operations of a personnel department, including the determination of personnel requirements, the employment process, discipline and employee relations. Motivation, leadership, and wage and salary administration are also covered.
Pre-Requisite(s): MGMT 211 Principles of Management
